PROGRESSIONS: Progression Interpretations

Astrologers use the term "Progressions" to describe a particular technique of moving planets forward in time. This technique is aptly named because it describes how a person progresses through their life. Progressions describe the different phases in our lives as well as our inner urges and how they affect our lives rather than dramatic outer events. However, our urges can significantly affect the way in which we react to circumstances and therefore our decisions. It is important that we go with the flow rather than fight against the tides of our lives. Therefore Progressions are likely to show us signposts in life's journey and consequently help us gain wisdom and understanding. Some astrologers believe that Progressions are signs from our soul or higher self; others place less emphasis. We suggest that you read on and see for yourself.

Everything seems a little larger than life right now. You feel as if all of your dreams and wishes are coming true now. In some ways you are correct. Life is full of many rewards right now. However, you need to make choices rather than try to take on every opportunity that comes your way. If you are not careful you may well overindulge and overestimate your own abilities. As a result your life may become imbalanced. You need to make sure that you do not neglect one area of your life as you pursue your own goals. You need to balance your home, family, work and marriage, with your own interests and appetites. The problem is that you are currently going through a somewhat egotistical stage. On the positive side you are eager to achieve your goals and are quite capable of doing so. Gifts, rewards and awards may well come your way. You may also attract warm wishes and gifts from friends, lovers, colleagues and family members. However, if you are not careful you squander your opportunities by taking things or people for granted. As a result you over-commit yourself, neglect loved ones and run out of energy. A time of short-term excess can result in loss of all that is meaningful. If you can slow down and appreciate the gifts and those who give then you are most likely to gain some enduring benefits. However, if you remain self-righteous and continue to indulge your every whim then you could fritter away this period of your life.
